This permit is issued subject to all prior rights on the source, and particularly subject to the right heretofore granted in certificate No. 74, issued under permit No. 4589, the amount of water herein allowed being additional to that granted in said certificate. It is understood that the 1.0 cubic foot of water per second for which this permit is granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to a beneficial use. A suitable measuring device must be installed and accurate measurements of the water placed to a beneficial use must be included in the proof of beneficial use when filed. The State reserves the right to regulate the use of the water herein granted at any and all times. It is distinctly understood that applicant agrees to the terms herein contained.
